What is Short Format Eventing?

This class is a progression of the established Combined Training Competitions (Dressage + Showjumping). The use of a Derby style track allows the inclusion of many cross country type fences within an enclosed area over a distance of approximately 1000m (roughly half the distance of a standard XC but with more fences). These fences include knockable rails which encourage accuracy and clean jumping, combined with the bravery to tackle water, ditches, drains etc. The result will also be influenced by a judge's mark given for **style** (meaning overall impression of the rider's ability to achieve a round showing judgement of pace, rhythm, balance and correct technique). This format is being developed from a similar class successful overseas and this is our second time running one at Scarteen. We welcome your input as always; please send your comments and suggestions to scarteenshortformat@topmail.ie.
